IN presenting you with this booklet of interiors, we offer some suggestions as to the artistic treatment of rooms, and would direct your special attention to the very inviting and attractive showing of Wall Papers that we are offering this season.

They are all fresh, new goods of the latest styles and colorings, and range in price from the most inexpensive to the more elaborate and more costly.

In the medium grades there are many designs and colorings to choose from, especially in the deep, rich greens, reds, browns, blues and yellows that make up the leading shades of the day, and are so well adapted for use in halls, dining rooms or libraries.

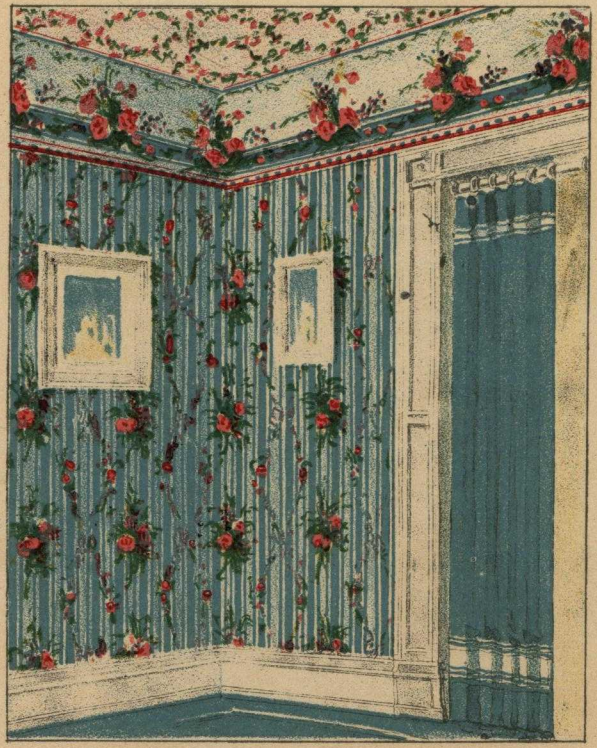
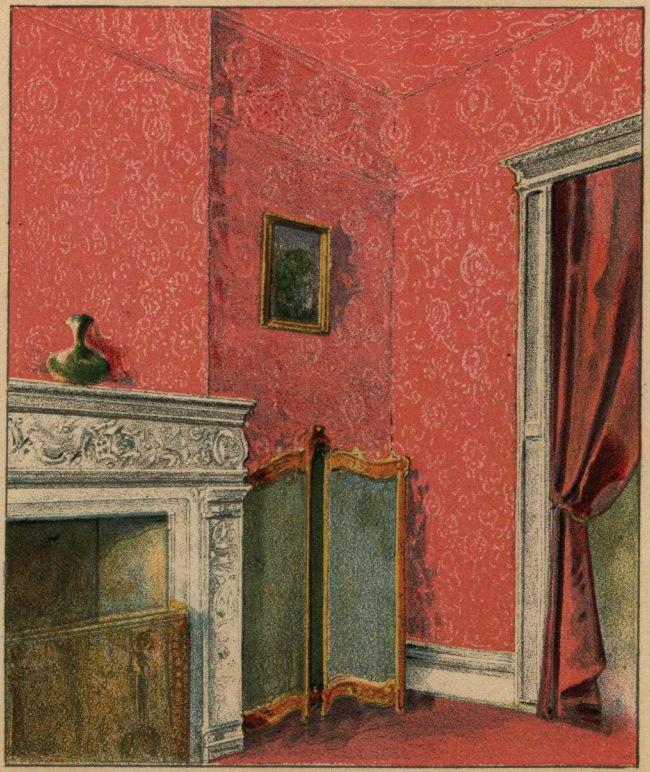
DINING ROOM IN TAPESTRY, WITH PLATE RAIL



SLEEPING ROOM



PARLOR IN SILK FINISHED PAPER

Of Tapestry papers there are many rich effects that are perfect imitations of the materials, and when used in dining rooms, halls or libraries, make very artistic rooms.

In parlor papers there are many suggestions—some with just the slightest touch of gold, some with plenty, others without any. Silk effects in rose tints, greens or yellows, light florals with gold interwoven, make attractive parlors. Panel work is also very popular for this room.

For the sleeping room there are many pleasing effects to be had in stripes—some in the French styles, with dainty garlands of flowers, others for all the world like pretty challies, with a background of stripes that have all the appearance of silk, Dresdens, cretonnes or floral effects on white or cream grounds.

COSY CORNER IN SLEEPING ROOM, WITH PHOTOGRAPH RAIL

For bath rooms or kitchens there are many clever designs in varnished tiles. These papers not only wear well, but make a clean, sanitary room.

We extend a cordial invitation to those seeking Wall Papers to come and see the new styles and get the new notions as to interior decoration. Never before have we had such a host of pretty, artistic, inexpensive papers.

We are glad at all times to show our goods, and to make suggestions as to their use. No matter which room you wish to paper, or the style of paper you would like to have, we think our stock is so complete and the variety so large that you will have no difficulty in finding just what you desire.
